IPA with Spruce Tips

This seasonal IPA was brewed with a blend of spruce tips and hops yielding a balance between tropical hop goodness, piney dankness, and a brilliant malt backbone that compliments all of our favorite parts of the holidays. Enjoy this beer with your loved ones while roasting chestnuts over an open fire, listening to your uncle's best dad jokes, or to simply celebrate the season.

7.3% ABV

Ithaca

Flower Power IPA

Enjoy the clover honey hue and tropical nose of our celebrated flagship ale. Flower Power is simultaneously punchy and soothing with a big body and a finish that boasts pineapple and grapefruit. We hop and dry hop Flower Power four different times throughout the brewing process for a powerful floral hop experience. Rated the best IPA in New York State, Flower Power is highly regarded among the most discerning hop heads.

7.2% ABV

Ithaca Everyday Haze IPA

Ithaca Beer is excited to introduce Every Day Haze, a juicy, fruity and deceptively smooth hazy IPA. Brewed with a dynamic combination of complex aromatic hops, Everyday Haze boasts a uniquely tropical citrus depth. True to the East Coast-style, Everyday Haze is soft and creamy on the palate and gets its light haze and silky mouthfeel from healthy additions of wheat and oats.

6.6% ABV

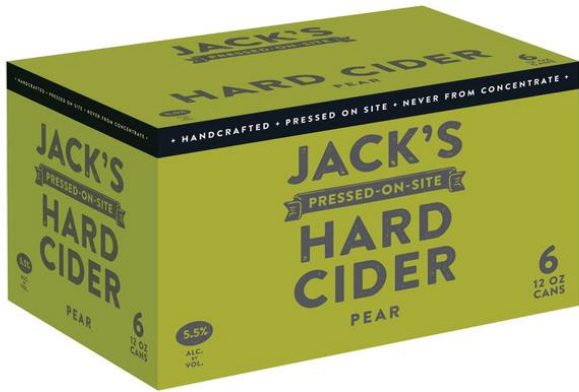

Dark Horse Crooked Tree IPA

Crooked Tree IPA is heavily dry hopped to give it a big aroma of pine and citrus. The flavors are big, yet very balanced between fresh hops and malt. Often described as “grapefruit,” our hops give this beer an excellent citrus flavor that finishes dry, crisp, and clean. Due to our unique dry-hopping methods it has won several medals in the India Pale Ale category.
6.5% ABV

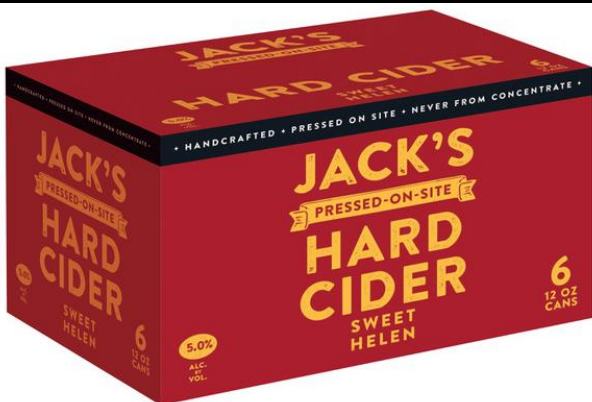

Dark Horse Raspberry Ale

This beer is a light bodied, easy drinking ale. We use real raspberries late in fermentation, giving this beer a mild fruit flavor while keeping a very balanced malt profile. This may not be what some would expect from a “fruit” beer, but our brewers make good beer; not fruity, carbonated malt beverages. Our motto is, “beer first, fruit second”.
5% ABV

Jack's Hard Cider Pear

This blend of our hard cider and freshly pressed local pears has an acidic body with a smooth pear finish.
5.5% ABV

Jack's Hard Cider Sweet Helen

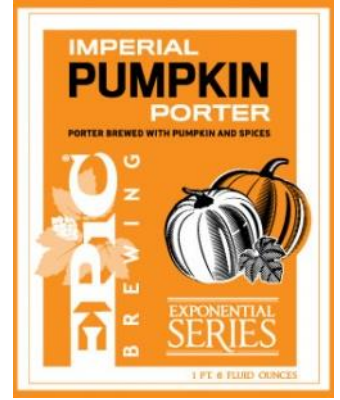

Fruit forward with a balance of natural acids and sugars creating a smooth finish.
5% ABV

Epic Imperial Pumpkin Porter

The essence of the fall! This beer explodes with aromas of sweet spices giving way to chocolate and roasted malt. Flavors are reminiscent of fresh-cut pumpkin and chocolate and complimented by hints of clove, fresh Madagascar vanilla beans, nutmeg and allspice.

7-8% ABV

Green Flash West Coast IPA

As a craft beer pioneers, we defined a style by brewing the benchmark west coast ipa, putting Green Flash on the map. Made with five different hops for complex layers of pine, floral & rip citrus aromas.

7% ABV

Green Flash Tropical DNA Hazy IPA

Tropical DNA features a complex lush fruitiness with a bright hoppy finish. This hazy ipa is brimming with tropical citrus aromas that transport your taste buds to paradise, sip after sip.

7% ABV

Green Flash Saturhaze

A laid-back 4.2% Hazy India Pale Ale with tropical and citrus aromas. Enjoy all-time flavor with this all-day style. Follow @HazeTheBeerDog on instagram and twitter for all things Saturhaze.

4.2% ABV

Troegs Passionfruit Guava Tart Ale

Brewed with 15 pounds per barrel of real fruit, Passionfruit Guava Tart Ale is a refreshing tropical take on our new Tart & Fruit Series. The combination of guava and passionfruit – two colorful and aromatic tropical fruits – lays down a juicy backbone with a pleasantly sweet-and-tart tang. Hornindal Kveik yeast adds notes of ripe pineapple.

4.5% ABV

The Truth Imperial IPA

Truth Imperial IPA is a hop bomb of some of the most distinct Pacific Northwest hops available today. Its sharp hop bitterness begins with huge pine notes on the nose, which evolve into bright citrus (think grapefruit) and subtle stone fruit flavors.

8.7% ABV

New Holland Lightpoint *Functional White Ale*

A functional white ale that offers a low-calorie option without compromising full craft flavor. Brewed with **coconut water**, **raw honey** and orange peel, this refreshing brew is best enjoyed with friends after a day of hard work and exercise.

3.7% ABV

Tröegs Haze Charmer *Dry-Hopped Hazy Pale Ale*

Haze Charmer emerges from a soft, swirling cloud of oats and unmalted wheat. Vigorous dry-hopping adds a second phase of haze, propping up the oils of El Dorado and Citra hops. Each sip delivers notes of juicy pineapple, fresh grapefruit and candied peach balanced by a hint of white pine and low bitterness. A soft, juicy and hazy pale ale, Haze Charmer is here to cast its

spell on you.

5.5% ABV

Duck-Rabbit Porter

The Duck-Rabbit Porter is very dark in color. This robust ale features a pronounced flavor of roasted grains reminiscent of dark chocolate. Also, we add oats to the grist for a round, silky mouthfeel. The malt is well balanced with hops to make this a fantastic choice for fans of traditional, robust, full-flavored beers. We're confident that you'll love this yummy porter!

ABV: 5.7%

Abita Strawberry

Juicy, ripe Louisiana strawberries, harvested at the peak of the season, give this crisp lager its strawberry flavor and aroma. Abita Strawberry is made with Pilsner and Wheat malts, Vanguard hops, and the finest Louisiana-grown strawberries resulting in a light gold lager with a subtle haze.

Abita CAN Party Pack

Featuring Abita Purple Haze, Strawberry Lager, Amber Lager and Jockamo Double Dry-Hopped Juicy IPA

Abita Jockamo

Double Dry Hopped Juicy IPA

Jockamo® Juicy IPA is a Double Dry Hopped IPA packed with Citra, Apollo and a blend of experimental hops. It pours a lively gold color while the brewing process produces a distinctive haze. Coming in right at 6%, Jockamo® Juicy IPA produces tropical and fruity notes that will leave you wanting more!

6% ABV

Juice Trials Hazy IPA

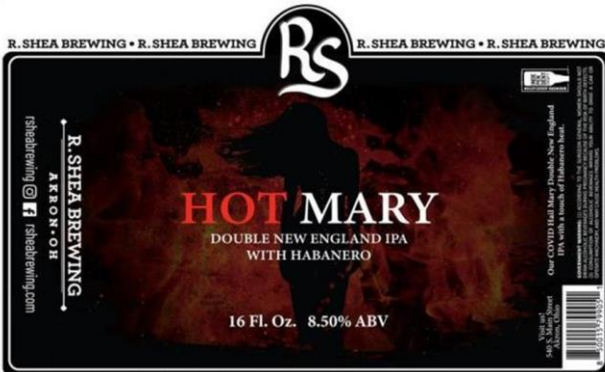

This iteration of Juice Trials features Idaho 7, Mosaic, Citra & Bravo. We decided to use this combination after reviewing Yakima Chief Hops latest research that focuses on which elements are most "survivable". What that means is they found out which hops have the oils, terpenes and thiols that can stand up to the boiling and fermenting processes and make it into your glass.

Might be the best JT yet!
